

# Exterior Façades

Solutions that stand the test of time – and the rigors of weather

CUSTOM® has tested these installations to ensure their durability over time as well as their ability to withstand all kinds of weather conditions. The result: solutions that are perfect for outdoor applications.

## Silicone Sealant

**Commercial 100% Silicone Sealant** is designed for use in coves, corners, changes in plane and expansion joints associated with exterior and interior applications of tile and stone. This product works well in pools and other wet area applications.
